Languages	English
Education	MBBS.
Professional Experience	Senior Consultant, Children's Eye Centre & Eye Alignment Centre, LASIK Centre, TTSH Eye Centre / Eye Clinic (Clinic 1A), Tan Tock Seng Hospital, Singapore.
Certifications	Master of Medicine in Ophthalmology. Fellow, Royal College of Physicians.

Dr Fam Han Bor is a Senior Consultant with the National Healthcare Group Eye Institute @ Tan Tock Seng Hospital. Dr Fam is active as a clinician, researcher and instructor, having given over 100 presentations in international and regional conferences.

His research has been published in leading peer-reviewed ophthalmology journals such as the Journal of Cataract & Refractive Surgery, the Journal of Refractive Surgery, the American Journal of Ophthalmology and the British Journal of Ophthalmology. As an educator, he has conducted numerous LASIK instructional courses, medical-in-service and live surgeries throughout Asia. He is widely sought after as a respected global key-opinion leader in the field of phacoemulsification, intraocular lens design, refractive surgery, corneal topography, ocular wavefront aberrations and visual optics. He has a keen interest in the design and optimising of new phacoemulsification and intraocular lens technologies. He is an active member of the prestigious IOL Power Club, an expert group dedicated to improving cataract outcomes.

His research interests lie in Visual Optics, Wavefront Science, IOP Calculations, Corneal Topography, Contact Lens and Eye Modeling and Biofilms.

He graduated from the National University of Singapore, with a Masters in Medicine (Ophthalmology) and was admitted as a Fellow of the Royal College of Surgeons, Edinburgh and the Academy of Medicine, Singapore. He received his subspecialty training in cornea and refractive surgery at the University of British Columbia, Canada.
